

### **Product Description**

The SLC-Box Zhaga Connection is equipped with a Lumawise Endurance S socket from TE connectivity (Zhaga-connectivity module). An operator can easily equip it with a SLC-Hub or SLC-Motion via plug and play.

### **BENEFITS**

- On-Site management of esave devices.
- User-friendly Windows software to view, configure and manage esave devices.
- System configuration without Internet connection.

### **FEATURES**

#### **On-Site Management**

The intuitive, easy-to-use configuration tool allows the on-site configuration of all parameters (i.e., dimming level etc.) for either an individual or a group of luminaires.

#### Easy Interface

Access updates on the overall system condition, active luminaires and their dimming profiles with visual representations, and environmental data such as temperature and CO2 levels. Access alerts you to any system failures and provides convenient access to essential settings through predefined toolbars.

#### **Mesh Network**

The Communication is ensured via an automatic, organizing 2.4 GHz mesh network. Each streetlight communicates with all luminaires which can be reached.

### DIMENSIONS

### WIRING DIAGRAM

### Housing

| Material          | ABS                     |
|-------------------|-------------------------|
| Temperature range | -20 +80°C               |
| Protection Class  | IP 65                   |
| Fire Class        | UL 94 HB                |
| Color             | Dark Grey or Light Grey |

### **Cable Gland**

| Material          | Polyamide        |
|-------------------|------------------|
| Membrane          | ePTFE            |
| Temperature range | -40 +100 °C      |
| Protection Class  | IP 68/69         |
| Cable Diameter    | 4.5 - 10 mm      |
| Maximum Torque    | 1.5 Nm / 150 Ncm |

### Zhaga Socket

| Standard          | Zhaga interface |
|-------------------|-----------------|
| Temperature range | -40 +90 °C      |
| Protection Class  | IP 65/66        |
